<p>20 minutes of writing</p> <p>Writing: Free write - choose a topic you would like to write about.</p> <p>Focus- Writers start on the left side of the page, and letters are printed from top to bottom on the lines</p>	<p>20 minutes of writing</p> <p>Writing idea: What are germs? What do germs do to our bodies?</p> <p>Watch the video: https://www.youtube.com/watch?v=NoxdS4eXy18</p> <p>Focus- Writers talk about the ideas they plan to write about.</p>	<p>20 minutes of writing</p> <p>Writing: Free write - choose a new/different topic you would like to write about.</p> <p>Focus- Add detail to your pictures.</p>	<p>20 minutes of writing</p> <p>Writing idea: List two ways we can stay healthy.</p> <p>Watch the video: https://www.youtube.com/watch?v=OPsY-jLqaXM</p> <p>Focus- Begin to draw pictures to help develop ideas for writing.</p>	<p>20 minutes of writing</p> <p>Writing: Free write - choose a new topic you would like to write about</p> <p>Focus- Talk about your writing and re-read the text you have written.</p>
<p>20 minutes of math</p> <p>Focus- practice math skills on Prodigy</p>	<p>20 minutes of math</p> <p>Focus- Use a piece of yarn, string, shoelace</p>	<p>20 minutes of math</p> <p>Focus- Collect various objects around the</p>	<p>20 minutes of math</p> <p>Focus- With either a deck of cards or cards</p>	<p>20 minutes of math</p> <p>Focus- practice math skills on Prodigy</p>

https://www.prodigygame.com/	<p>and measure various objects around the house finding objects that are longer than, shorter than or the same as. It is important for children to use this language.</p>	<p>house of varying weights. Put one object in each hand to figure out which is heavier. Use the language heavier, lighter, the same as.</p>	<p>that the children created play war. This is a two person game where each person has half the deck. Each person plays one card and the person who laid the higher card wins and gets to take both cards. The game is over when one person has all the cards. The point of this game is for the children to learn which number is greater.</p>	https://www.prodigygame.com/
<p>Mental Math - count forwards from 1 to 20</p>	<p>Mental Math - count backwards from 10 to 1</p>	<p>Mental Math - name the number that comes after a given number, 1 to 9</p>	<p>Mental Math - name the number that becomes before a given number, 2 to 10</p>	<p>Mental Math - show a given number as 2 parts using fingers. Name the number of each part (for example, make 5 by holding up 2 fingers on one hand, 3 on the other)</p>

GoNoodle - www.gonoodle.com This website has many free guided dance videos as well as calming/relaxation videos. We use this site at school for movement breaks throughout the day.

I Know It - www.iknowit.com This has many different math activities. You can sign yourself up for a free 60 day trial.

HearBuilder - www.hearbuilder.com This is a literacy website with many different activities (following directions, phonological awareness, auditory memory, sequencing). You can sign up for a free trial that will be available until June 30th.

Jack Hartmann - Go to www.youtube.com and type in “jack hartmann” He has a wide variety of literacy and math educational videos and guided dances available on youtube.
